Patricia Kelley Giddings Reunion 2010 Class Story:

We anticipated a beautiful fall weekend for our 65th reunion, and were not disappointed. An absolutely gorgeous weekend!

As of Friday night, I was the only member of our class registered, but I was delighted on attending the general meeting on Saturday morning to find myself seated next to Anne Faletto.

That afternoon, after the beautiful Liturgy in the Chapel, we enjoyed a social hour in Alverna, and then walked to Lourdes dining room, where we enjoyed the banquet at a table with a wonderful group of 1940's grads.

Ann and I wished that more of our classmates could have joined us, and we thought of you all.

Pat Kelly Santelmann has published a memoir, *Even the Angels*. This is the story of Pat's family, but in the Irish Catholic family that she describes readers will recognize many of the characters and events as part of their own experiences.

"It was originally inspired by an account of the car accident that claimed the lives of four of my family members," said Pat, "but it became a description of Irish Catholic culture through the 1950's. As I wrote about my life at St Teresa's, I realized how far away we are from the life and culture we knew as Teresans: the way we dressed with hats and gloves, the formal dinners, and the restrictions on our comings and goings. These were pre-Vatican days and the things we knew as common: weekly confessions, altar boys, but no girls, nuns in formal habits, and Mass in Latin, are now part of the past."

For some Teresans this book will be a trip down memory lane; for others it will be a look at an earlier way of life. The book can be obtained on-line through Amazon.com or the publisher, Xlibris.com, and through Barnes and Noble.
